

Insider's Guide to Finding Flights to Bonaire from North America

The choices for U.S. and Canadian travelers flying to Bonaire continue to change and grow. Many of these airline alternatives require knowledge of schedules, days of operation, gateway cities and routing to successfully navigate and find the most viable choice for your travel plans. There is no one 'right' or 'best' way to get here – but the following examination of the marketplace will help you find the routing (and fare) that best meets your needs.

Supply and demand along with the realities of the new airline marketplace continue to show that buying airfare direct from the carriers themselves will afford you the best fares in most cases.

This White Paper will outline the variety of alternatives, contrast advantages and disadvantages, and offer some suggestions on researching and purchasing tickets to Bonaire.

Nonstop Options from the U.S. to Bonaire (BON)

1. Continental Airlines – Nonstop jet service from the U.S. to Bonaire

Continental offers flights each week from **Houston** (2 flights) and **Newark** to Bonaire (with a 2nd flight during peak season weeks – see **B** below).

A. The **Houston** departures leave on Friday nights shortly before midnight (an overnight flight) arriving Bonaire early **Saturday morning**. The aircraft does a turnaround and departs from Bonaire Saturday morning with a late morning arrival back in Houston. There is also a 2nd flight that is a **Saturday night** departure from Houston arriving on Bonaire on **Sunday mornings** (with a **Sunday morning return** to Houston).

***NOTE – the Houston-Bonaire flight** does not operate its **Sunday-Sunday** (departing Houston late Saturday night with Sunday arrival and Sunday return) from **Aug 21-Sep 25, 2011**. It resumes from Houston starting Oct 2, 2011.

B. The **Newark** departure is similar, leaving on Friday nights shortly before midnight (overnight flight) arriving Bonaire early **Saturday morning**, returning that same Saturday morning to New Jersey (arriving late morning in Newark).

The Newark-Bonaire flight does **NOT** operate from **Aug 20-Nov 5, 2011**. It resumes on Nov 13, 2011 as a **Sunday** (depart late Saturday night) to **Sunday** itinerary. These frequency schedules can change at any time!

Equipment – Boeing 737—Airport Codes: **IAH** (Houston) **EWR** (Newark) **BON** (Bonaire)

Pros –

- * Nonstop flight
- * Early arrival on Bonaire gives travelers a full day for activities
- * Extensive network of Continental flights from other U.S. cities that connect to Houston and/or Newark.

Cons –

- * Overnight flight arrives very early in the morning before check in for most accommodations (although many lodging options on Bonaire will allow early check-in if room is available)
- * Limited days of operation

Best Source for checking schedules and fares as well as ability to purchase is www.continental.com ... their trip planner is easy to use for research and to make reservations and ticket purchases.

Tip – When using the Continental website trip planner, be sure and request dates that correspond to their southbound departure date (day before arrival).

We have found www.cheapoair.com to have very good deals combining different airlines with itineraries using Curacao as a connecting point with interisland service to Bonaire for any day of travel.

Synopsis

Although non-stop flights from USA to Aruba were not listed in the options list, it is an alternative gateway to Bonaire with many major carriers offering competitive fares and schedules throughout the week including Delta from Atlanta, USAir from Charlotte, American from Miami and Jet Blue from JFK. As an interisland connecting point, it can be effective – but may require longer layovers in Aruba for ample connection time and possible stops in Curacao on the way to Bonaire by inter-island carriers.

We see an increasing use of Aruba and Curacao as an alternative with both lower costs and/or better arrival/departure schedules in comparison to some Bonaire flight options. That being said, the Continental, Delta and Insel Air nonstop options from the U.S. to Bonaire continue to be the preferred options of most travelers (even at higher fares).
